Art Unit: 1652

The examiner acknowledges the application and the preliminary amendment; both filed on February 22, 2000. The amendments to claims 20 and 21 and new claims 22-25 were not entered because the application contains only 19 claims. Claims 1-19 are, therefore, pending in the application and are the subject of restriction requirement.

Restriction/Election

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1. The species are as follows.

Claim 3 is directed to:

- (1) urokinase receptor binding
- (2) receptor binding domain of epidermal growth factor
- (3) receptor associated protein that binds to LDL
- (4) α_2 -macroglobulin receptor, and
- (5) VLDL receptor.

Claim 8 is directed to:

- (1) bovine pancreatic trypsin inhibitor,
- (2) splenic trypsin inhibitor, (3) urinary trypsin inhibitor,
- (3) tissue inhibitor of matrix metalloproteinase 1,
- (4) tissue inhibitor of matrix metalloproteinase 2, and
- (5) elastase inhibitor.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
